Hey Patrick Henry! I would love to see your support for the Constitution.

Sorry Hamilton, the Constitution has major problems. It is like a flashback to having too much power in the national government.

Don't worry though. The horrible Articles of Confederation did not work. There was not enough federal power to take any action.

But you are doing it again! This concept called "checks and balances" will still give too much power to the executive branch then!

No, the whole point of checks and balances is to protect against the abuse of power. Our government can protect us!

How do you define "our government?" I see our government being connected to popular participation of our people, and states. Everyone needs to be represented.

President Roosevelt, I know I was a supporter of the New Deal, many of my ideas have changed

Huey Long, some of your ideology regarding wealth is alarming. I wish you were not completely against the Federal Reserve Bank.

The Bank is one of the main reasons for the Great Depression. "Share Our Wealth" will allow for a greater distribution of wealth

I will admit, I love that you used the radio to spread your message. You need to be prepared for some negative feedback.

We will see, Mr. President. By the way, I'm planning on running against you in 1936

(one year later). Well, does not look like Long will be a problem any more
